## **Harmonization of Human Development Programme and Donors in West Papua Province**

**A cooperation between UNDP, the local Government and multi stakeholders in West Papua.**

## Foreword

*May peace be to us all,*

People-centered Development in West Papua which related to the achievements of Millennium Development Goals (MDGs) acquired full support from government, private sectors, Civil Society Organizations, and donors community in West Papua.

Planning of development programs conducted by government and external assistances or donors in the future need an increasing understanding on lessons learned from the existing or planned activities. Accordingly, close coordination between all West Papua development stakeholders, including donors and local actors are very important to improve the activities harmonization and effective distribution of development impacts.

Related to above-mentioned purposes, BAPPEDA as government agency responsible to plan and control the development publish this booklet to ensure the harmonization and synchronization of program implementation in West Papua, and to prevent overlaps of development activities and location for program implementation.

This is the first edition booklet and contains project information on international agencies or organizations work in West Papua. Expectantly, the compilation in this booklet will give new inputs to the development actors in West Papua. This booklet will be updated and published regularly so all development actors could get new and up to date information, continuously.

We thank all the agencies and organizations participated in West Papua development. Hopefully that with close cooperation we can achieve the development goal to improve the welfare of all communities in West Papua.
